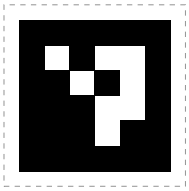
Black or Yellow: corner markers (ArUco 4x4, ids 0-3)

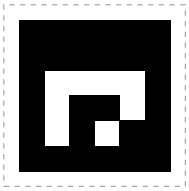
Print at 100% / "Actual size" (do NOT "fit to page"). Check: the ruler below must measure 10 cm.

10 cm

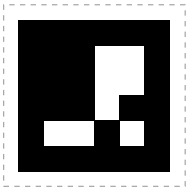
2 cm markers (cut on the dashed line: 0.2 cm white border)



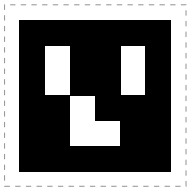
0: cell 1 (BLACK)



1: cell 4 (YELLOW)



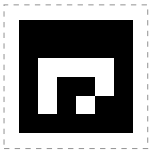
2: cell 16 (BLACK)



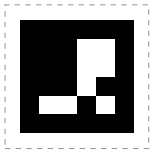
3: cell 13 (YELLOW)

1.5 cm markers (cut on the dashed line: 0.2 cm white border)

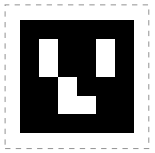
0: cell 1 (BLACK)



1: cell 4 (YELLOW)



2: cell 16 (BLACK)



3: cell 13 (YELLOW)

Placement: each marker goes in the OUTER corner of its corner cell, edges lined up with the board edges.
Marker 0 at cell 1, then 1, 2, 3 clockwise as seen by the camera.
Markers on YELLOW cells (1 and 3) may be trimmed right to the black edge; on BLACK cells keep the white border.
Keep them flat. Small markers need a sharp camera: if one is not found, use 1280x720 in IP Webcam or the 2 cm set.
